- **Incident Response:** Expertise in handling security incidents effectively and efficiently.
- **Risk Management:** Knowledge of business continuity and disaster recovery planning.
- **Access Control:** Experience in implementing and managing access control measures.

Professional Experience

Cybersecurity Analyst (Endpoint & Mobile Device Security)

Specialisation: Endpoint Security Specialist

King's Church Gillingham / Charity Organisation, Nigeria

April 2025 – Present

Key Responsibilities & Achievements:

- Designed and implemented a comprehensive mobile device security policy for Samsung Galaxy Tab devices donated to a charity organisation.
- Deployed and managed Samsung Knox Manage (Knox 2) for remote mobile device management (MDM), ensuring secure control and monitoring of devices across international locations.
- Configured endpoint security controls including app restrictions, remote lock/wipe, and location tracking to prevent unauthorised access and data breaches.
- Improved operational security and compliance by enabling real-time remote device management and incident response capabilities.
- Strengthened data protection and device integrity for end-users while maintaining operational efficiency for the charity's programmes.

Cybersecurity Analyst

Research Africa Publications Limited

July 2023 – Present

- Monitored networks and systems to detect and investigate security threats.
- Installed and managed firewalls, encryption programs, and other security software.

Incident Manager

Research Africa Publications

February 2023 – July 2023

- Developed and implemented incident management and response plans.

- Collaborated with security and business teams to mitigate risks and ensure service dependability.

Incident Manager

OA MediaKraft Ltd – Chatham, Kent

February 2022 – July 2023

- Managed service dependability by mitigating incident risks.
- Coordinated with teams to develop comprehensive incident response strategies.

Portfolio

Deployment of Security Controls for Mobile Devices

Client: King's Church Gillingham / Charity Organisation, Nigeria

Role: Cybersecurity Analyst (Endpoint & Mobile Device Security)

Tools & Technologies:

Samsung Knox Manage, Android Enterprise MDM, Endpoint Security Controls
